## Be ready for the start of school!

An all-in-one package that will make your web presence ready for the fall.

Brand New Template

District site assessment

Custom Refresh Training

Accessibility Training

## Back-to-School Web Presence Readiness Package

Has it been awhile since you showed your website some TLC? Let us help you create a plan to update your site and keep your brand fresh! The Web Community Manager Template, Site Refresh and Accessibility Package is designed to give you guidance from a Blackboard training consultant about updates to your website in the areas of site navigation, product apps and features, accessibility, and a beautiful new look.

### Key Features

- Collaborate with a training consultant for a website assessment on your main district site
- Receive one-on-one consulting to review assessment findings.
- Apply accessibility best practices with a 2-hour training for up to 15 participants.
- Update website navigation for visitor ease of use.
- Incorporate new apps, tools and functionality from the latest releases.
- Update website design with new design ready template.

## Choose your Design Ready Template Package

- A Design Ready template is designed to be configured and set up with minimal effort. Our user-friendly interface makes it incredibly easy to change color schemes, logos, global icons and more, all within a preview environment
- All Design Ready templates receive automatic maintenance. If a new browser version is released, accessibility requirements change, or a template defect is reported, a universal template update will be made.
- All Design Ready templates include 5 responsive displays, Google-branded translator and Multimedia Gallery App that shows photos and embedded videos.
- View the Design Ready details and portfolios here: <https://cerc.blackboard.com/drt>
